Our Products

Ornaments, earrings, and village buildings are etched in brass, then coated with 24k gold or rhodium. Earring wires are gold filled or solid sterling silver.

Our earrings are incredibly lightweight. People tell us they are the most comfortable earrings they've ever worn! Christmas Ornaments are highly reflective, lightweight, and collectable. Most can be personalized by your jeweler.

The Candle Village is beautiful on a mantel or in a window –new pieces are added annually for collectors. All pieces can be cleaned, if necessary, with jewelry cleaner and a soft cloth.

About the Artist – Susan Pine

“I work to express my designs in metal, creating items that are functional decoratively, while also having intrinsic worth as artistic collectibles. The high detail and delicacy that the process of acid-etching affords me is the basis of my work.”

For the most part self-taught, Susan has studied at the Haystack School of Crafts and exhibited nationally. Her work can be found in select shops throughout the U.S.
